

Altona Community Memorial Health Centre Emergency Department

July 2021 Data Update

	Mar 2021	April 2021 (service changes implemented)	May 2021	Jun 2021	Jul 2021	3 month average (May - Jul)
Total Visits	373	345	400	411	483	431.3
Average Daily Visits	12.03	11.50	12.90	13.70	15.58	14.07

By the Numbers

- There has been a continued increase in ED visits (483) and average daily visits (15.58).
- Three month averages have been increasing: from 385.3 in the previous 3-month time period (Apr-Jun) to 431.3 for May to July. The three month average daily visits increased from 12.7 to 14.07.
- The Emergency Response Services Station data reflect the Altona ERS Station catchment area and not only the community of Altona (map below). The data are not a reflection of the sites to which patients are transported.

Altona Emergency Response Services Station Catchment 2020-2021	<h1 style="font-size: 2em; margin: 0;">622</h1> <p style="margin: 0;">total calls</p>	<h1 style="font-size: 2em; margin: 0;">33.02 minutes</h1> <p style="margin: 0;">The maximum that most patients (90%) waited between 911 phone call to ground ambulance arriving at the incident scene (for all priorities).</p>
