

Altona Community Memorial Health Centre Emergency Department

June 2021 Data Update

	Feb 2021	Mar 2021	April 2021 (service changes implemented)	May 2021	Jun 2021	3 month average (Apr - Jun)
Total Visits	305	373	345	400	411	385.3
Average Daily Visits	10.89	12.03	11.50	12.90	13.70	12.70

By the Numbers

- There has been an increase in ED visits (411) and a slight increase in average daily visits (13.7).
- ERS response time has been updated for 2020-21. Compared to the previous fiscal year, there were 130 more calls, while wait times were less than 1 minute longer.
- The data reflect the Altona ERS Station catchment area and not only the community of Altona (map below). The data are not a reflection of the sites to which patients are transported.

Altona Emergency Response Services Station Catchment 2020-2021

622
total calls

33.02 minutes

The maximum that most patients (90%) waited between 911 phone call to ground ambulance arriving at the incident scene (for all priorities).
