

MOBILE CLINIC CLINIQUE MOBILE

BETTER CARE FOR YOUR FAMILY
DE MEILLEURS SOINS POUR VOTRE FAMILLE

What is a **Mobile Clinic**?

Manitoba's Mobile Clinics are buses that have been designed to be fully functional primary care clinics. They come complete with two exam rooms, a wheelchair lift, and the same medical equipment and technology you would find in any other clinic.

Mobile Clinics improve access to local, on the spot primary health care services for people living in Manitoba's smaller underserved communities.

Mobile Clinics are staffed with registered nurses and nurse practitioners. Nurse practitioners are registered nurses who have completed advanced education and training and have passed an approved examination. A nurse practitioner can prescribe medications, order and manage the results of screening and diagnostic tests, and perform minor surgical procedures.

What services will **Mobile Clinics** provide?

Mobile Clinics provide the full range of primary health care services including:

- regular check ups
- treatment for minor ailments
- limited lab services
- health promotion and education
- immunizations
- help with managing a chronic disease or condition
- referrals to other health services or specialists
- prescription renewal

Can a **Mobile Clinic** be my regular primary health care provider?

Yes. A Mobile Clinic can be your "home clinic"- the place where you receive most of your health care.

What communities will the **Mobile Clinic** visit?

All Southern Health-Santé Sud residents looking for primary health care are welcome to access the mobile clinic. Initially, communities scheduled to receive regular weekly visits are: **Langruth** (Mondays), **Plumas** (Tuesdays), **St. Ambroise** (Wednesdays), **Woodridge** (Thursdays) and **Dominion City** (Fridays). The clinic will be scheduled for regular visits once a week in these communities but citizens from other communities are encouraged to visit the clinic in a community nearest them if they are looking for primary care. **Please call 1-855-644-3515 to make an appointment** at your nearest community.

Why is Manitoba introducing **Mobile Clinics**?

Mobile Clinics bring reliable access to primary care to people living in some of Manitoba's smaller underserved communities. Having access to a regular health care provider will help people living in these communities receive ongoing health care and support close to home. It will also save time and transportation costs for patients by bringing primary health care services to their community.
